

THERMALITE 250 – TH250

WITHOUT ASBESTOS	HIGH MECHANICAL RESISTANCE UNDER HEAT	GOOD THERMAL PERFORMANCES	USE UP TO 280°C
-------------------------	--	----------------------------------	------------------------

Thermalite 250 is specially designed for thermal insulation of presses working continuously up to 250°C. It is delivered in plane plates rectified 2 sides. Its great mechanical characteristics and good dimensional stability under high thermal stress make it suitable for highest applications. Color light green, thicknesses from 5 to 50 mm, formats : please contact us.

Physical Properties	Values	Units	Tests Standards
Density	2	g/cm ³	ISO 1183/1
Water absorption (thickness 10 mm)	0,15	%	ISO 62/1
Resistance to chemicals	good
